## PROFESSIONAL SUMMARY

A competent construction manager offering a wealth of experience in architecture, design, modelling, project management and operations.

Possess strong communication skills, creativity, teamwork, problem solving and getting things done mentality.

Looking for new opportunities that align with my skillset and expertise.

## EXPERIENCE

### **Mazula and Sons, Head of Projects and Architectural Planning**

2007 – Today

- Orchestrating full range of operations for wide variety of construction projects. Generating profits and positive reputation for the company.
- Leading planning, coordination, logistics, purchasing, scheduling, design, development, and execution of various construction projects, both local and international, for the private and commercial sectors. Leading each assignment from the conceptual design stage through final construction, with completion within/below budget and on/ahead of schedule.
- Responsible for consulting with clients, selecting appropriate materials, drafting plans, following building code regulations, and completing building remodelling processes.
- Building and proposing 3D models of projects for client reviews. Preparing detailed plans and construction documents intended to be practical, aesthetic and conducive to the intended purposes of design build. Assembling and producing materials including renderings, diagrams, and charts for presentations.
- Heading multiple teams in the design, construction, document preparations and construction administration phases for several projects in parallel. Recruiting workers, negotiating contracts, getting necessary permits, surveying construction sites, and minimizing environmental impact.
- Preparing work plans, Gantt charts and documenting daily progress to ensure quality performance and scheduling requirements were met. Solicit bids and coordinating work with subcontractors.

### **Solar Decathlon 2013, design, build, and operate team**

2011 – 2013

Took part in a team representing Israel in the Solar Decathlon 2013 competition in China. Designed a smart home using net-zero green technologies and methods.
